THE SAMOAN MUDDLE.

State Department Is Striving For an Adjustment of Affairs.

ATTITUDE OF THE CABINET.

Representatives of the Three Interested Nations Will Hold a Conference. Official Information About the Trouble Is Still Wanting.

Washington, Jan. 20.—The state department is moving with due deliberation, yet with firmness, respecting the adjustment of conditions in Samoa.

The publication of incendiary newspaper articles is deprecated as calculated to interfere with an amicable and fair settlement of the important questions at issue, and the department is directing all of its efforts now, as it has in the past, to the use of lawful and regular means to settle the succession at Apia.

In fact, it was its insistence upon the compliance of all the parties to the tripartite treaty with the terms that the document, so long as it stood undenounced and unamended, that has made its position so strong legally at this juncture.

There is still a lack of official reports upon the details of the stirring events at Apia. A brief statement of these events has reached the department through the dispatch agent at San Francisco, but so far as can be gathered it is not yet known when Justice Chambers decided that Mataafa, the German candidate for the succession to the throne of Samoa, was ineligible.

It is suspected here that the decision was based on the use of improper influences by outside, but interested, parties in the election of a king.

That, if established, would be sufficient to disqualify Mataafa under the strict terms of the treaty, which expressly provides for an untrammelled choice by the natives, according to their own established customs.

The United States government must adhere to the terms of the treaty so long as it stands, this being a duty imposed upon the government by the document itself, so it is to be presumed, in the absence of an official statement, that the instructions sent to the United States consul general at Apia, and perhaps also to Ambassador White at Berlin, are to be governed by this understanding in any presentation of the case that it may be necessary to make.

The navy department's orders to the Philadelphia have been sent to Admiral Kautz. They were in the shape of instructions to take on a full supply of coal and make ready for a cruise to Samoa.

There was not an explicit order to start, but simply to make ready.

If the admiral, as reported in the press dispatches, finds that his ship's bottom is so foul through her cruise in the southern waters as to be unfit for the voyage to Samoa, he will probably be authorized to use divers to clean the hull, for the department has decided that the ship should not be sent to the Mare Island navy yard to be fitted out.

There will be about five days available in all probability before the Philadelphia can clear, and the department will be able to order Chief Engineer Bates from the Texas to take the place of Engineer McAlister of the Philadelphia.

Engineer Bates was ordered to leave Havana for New Orleans, whence he will proceed by rail across to San Diego.

Cabinet Discusses It.

Washington, Jan. 20.—All of the members of the cabinet were present at the meeting. The situation in Samoa was under discussion, but in the absence of any official or late information, it is thought no action will be taken at once beyond asking for a conference between the ambassadors of the three powers which have concurrent jurisdiction over the islands under the present treaty. It must be presumed that whatever the action was taken by the German consul in Apia was not with the knowledge or consent of his sovereign, but rather was taken on his own account, and that such action should be found to amount to an unjust usurpation of authority under the treaty will be promptly disavowed by the German government. It is believed that the conference of the three powers will be held at Berlin and at an early day.

How It Happened.

Hamburg, Jan. 20.—According to news received here from Samoa, Chief Justice Chambers, on Dec. 31, annulled the election of Mataafa, who was returned by a sextuple majority, and declared Malletoa Tanus, the son of the late King Malletoa, who is still a minor, to be king.

THE QUAY CONTEST.

Pennsylvania Statesman Still Wants Thirteen More Votes.

Harrisburg, Pa., Jan. 20.—The third ballot for United States senator resulted: M. S. Quay (R), 93; George A. Jenks (D), 69; John Dalzell (R), 14; John Stewart (R), 9; Charles W. Stone (R), 8; George F. Huff (R), 5; Alvin Markle (R), 1; Galusha A. Grow (R), 1; Charles E. Rice (R), 1; C. E. Smith (R), 1; J. F. Downing (R), 1; E. A. Irvin (R), 3; Charles Tubbs (R), 4. Absent and not voting, 42. Necessary to a choice, 106. Mr. Quay still lacks 13 votes, the same as on the first ballot.

Absenteeism Feared.

Charleston, W. Va., Jan. 20.—The senatorial contest has become partisan. It is no longer factional since Hon. N. B. Scott, United States commissioner of internal revenue, received the Republican caucus nomination. Previously Hon. J. T. McGraw was made the Democratic nominee. The headquarters of other candidates have been abandoned and many are gone. It is conceded now that either Scott or McGraw will succeed Senator Faulkner, with the odds in favor of the former. The legislature as it now stands has a Republican majority of one on joint ballot, and that is what makes the situation still one of doubt. If any one of the members is sick or absent from any other cause when the legislature ballots for senator next Monday there can be an election. Scott expects to receive all the Republican votes, if all are present, but the probability of one or more being absent is causing great anxiety.

Hayward Gains Four.

Lincoln, Neb., Jan. 20.—On the fourth ballot for senator Hayward gained four votes, making him 40, a should one be called. The vote stood, Allen, 53; Hayward, 40; Webster, 10; Thompson, 7; others scattering.

McCumber Nominated.

Bismarck, N. D., Jan. 20.—The Republican senatorial caucus nominated P. J. McCumber as Republican candidate for United States senator.

Forger Arrested.

New York, Jan. 20.—Louis J. Snure, formerly confidential clerk for Mandel, Pursch & Weiner, clothiers, is a prisoner, charged with stealing \$20,000 from his firm by means of forged checks. He fled from this city in March of last year, taking with him his young wife. She was threatened with consumption, and it was for her, it is alleged, that Snure stole. He scoured Europe for a suitable climate. His wife grew worse, and five days ago they returned to this city. Detectives heard of Snure's arrival and he was arrested.

Expects a Share of an Estate.

Denver, Jan. 20.—Mrs. Mary Tyson-Williams of this city, who is 45 years old and has three children, claims to be a niece of James Tyson, the Australian, who recently died, leaving a fortune estimated to be worth over \$25,000,000, and she expects to receive a share of the estate. Mrs. Williams says that Tyson's correct name was Roberts, that he was born at Festing, North Wales, and that her mother was his sister.

Transportation Rates Desired.

Washington, Jan. 20.—The war department has issued an invitation for bids from responsible shipping concerns of all nations for transportation of the Spanish prisoners in the Philippines from Manila to Spain. The treaty requires the United States to transport these prisoners home without waiting ratification of the peace treaty. Bids will be opened Feb. 1 in New York and San Francisco.

Wants More Taxes.

Akron, O., Jan. 20.—Auditor L. E. Sisler seeks to tie up the \$1,200,000 paid by the reorganized company for the property of the Werner company. He has filed a motion in court asking that no distribution be made until after the final hearing of the back tax case which is now pending. He alleges that the Werner company has made false returns on the valuation of its plant, it being on the duplicate for \$90,000.

KNUTE NELSON'S VIEW

On Subject of Territorial Expansion of United States.

A TART REPLY TO TILLMAN.

Statesman From Minnesota Makes a Constitutional Argument in Support of the Right of This Country to Acquire Territory.

Washington, Jan. 20.—President Pro Tem Frye, who has been ill for several days, presided over the senate at the opening.

A message from the president vetoing the bill for the relief of Albert E. Redstone was read.

Mr. Nelson (Minn.) was then recognized to make a speech upon the Vest anti-expansion resolution. His address was a constitutional argument in support of the right of the United States government to acquire and govern foreign territory.

He maintained that it was no longer an unsettled question that this country had the power not only to acquire foreign territory by discovery, conquest or treaty, but also to govern territory so acquired.

That question, he said, had been settled by decision of the supreme court, and was scarcely longer open to debate. He maintained that the United States had inherent power to acquire territory—a power as full and comprehensive as that possessed by any other nation.

He referred to the territory that had been acquired in the past by the United States government, and declared that in no single case had the people of the territory been consulted or their consent secured. In the two cases of Texas and Hawaii we had more nearly approached the point of consulting the inhabitants than in any other, but even in those cases there was but a shadow of consultation.

In that of Hawaii less than 5,000 of the inhabitants, out of a total of 125,000, had been asked for their consent to annexation. A majority of our people, he said, were without direct representation. Women, minors and imbeciles were without representation in our government, and had to bear their share of taxation. They had, in other words, to undergo the burdens of our government without any voice in its control.

Mr. Tillman (S. C.) interrupting Mr. Nelson and referring to the contest between Sweden and Norway and the practical severance of their relations, inquired why the Norwegians at home wanted liberty while those of the United States did not desire to give liberty to the Filipinos.

This reference to Mr. Nelson's Norwegian birth aroused him. "I am a citizen of the United States, Mr. President," he replied. "I am not representing either the people or the government of Norway whose rights and liberties I am satisfied are greater than those of the people of South Carolina."

MAJOR DALY

Says He Is Willing to Stand By Report About Beef.

Washington, Jan. 20.—Major W. H. Daly, chief surgeon with General Miles, and whose field service stretched from Tampa to Porto Rico, and whose report condemning the beef furnished the expeditionary forces created a sensation some weeks ago, made his long-awaited appearance as a witness before the war investigating commission.

Dr. Daly has been too ill to appear heretofore.

On being sworn the witness identified the report submitted as his own, changing its date, however, from Sept. 31 to Oct. 31. He was willing, he said, to stand by his report. It was wholly voluntary and was not called out by any request or in obedience to any circular or letter, so far as he remembered.

He had heard nothing of an official circular calling for reports. At Ponce, however, some time between Aug. 1 and 12, he believed he had communicated to General Miles some observations regarding beef supplies. At Tampa, on shipboard, he had noticed a quarter of beef hanging free in the sun on shipboard, and he became interested in the experiment of having fresh slaughtered beef placed under such moist climatic conditions to see how long it could stand it.

"I observed," he said, "that the flies, especially the bull flies, did not affect it; did not even alight on it, or if they did they got away from it very quickly."

He had cut off a piece of that beef at Tampa and cooked it, but it neither smelled nor tasted naturally. Subsequently he had stomach trouble.

The Weather.

Forecast for Ohio and West Virginia—Threatening weather; brisk southerly winds.

HAWAIIAN BILL READY.

The Measure Will Be Urged For Immediate Passage In House.

Washington, Jan. 20.—The friends of the Hawaiian bill in the house of representatives will make an effort to take it up at an early day, and they express confidence that it will get a hearing.

The bill was agreed to in committee some days ago, and Chairman Knox of the committee on territories is drawing the report. There was some idea that the bill might be taken up this week, but owing to the press of business it went over with the understanding that a strong effort would be made next week to get a hearing then, or soon after.

Mr. Knox and Mr. Hill, the latter being one of the Hawaiian commissioners, say that no purpose is manifested to postpone the legislation until the next congress meets. They also say that it is imperative that legislation of some character shall be enacted.

One reason cited for this is that there has been a large influx of Japanese immigrants to Hawaii since the annexation law was enacted, and that some 10,000 contract labor Japanese will be brought into Hawaii, and then into the United States.

New Boat Arrives Safely.

New York, Jan. 20.—The British steamer Manhattan, which arrived here from Liverpool in ballast, is a new steamer. She is owned by the National Line Steamship company, and will run in the trade of the Atlantic Transport company. The Manhattan is 8,003 tons gross measurement, and registers 6,124 tons. She also has accommodations for a limited number of cabin passengers. She is fitted for a limited number of cabin passengers. She is fitted with stalls for over 1,000 head of cattle. She experienced a succession of heavy westerly gales during the entire passage, but proved an admirable seaboat, and sustained not the slightest damage.

Some Possible Changes.

Washington, Jan. 20.—The succession of Representative Payne to the chairmanship of the ways and means committee, which is regarded as assured, is leading to conjecture as to who will become the additional Republican leader of the committee, to fill the vacancy made by Mr. Payne's moving up. The names of Mr. Sherman of New York and Messrs. McCall and Lovering of Massachusetts are being discussed in this connection, and the impression continues that Mr. Richardson of Tennessee will succeed to the Democratic vacancy made by Mr. McMillen's retirement.

Discharged Men to Be Returned.

Washington, Jan. 20.—In accordance with an order just issued, enlisted men discharged in Cuba, Porto Rico, Hawaii and the Philippines, or other places outside the United States, will be provided free transportation to the United States on government transports to the United States, and will be subsisted by the subsistence department to the port of its destination.

SENSATIONAL ESCAPES

From a Burning Hotel Filled With Guests at Cincinnati.

HYSTERICAL WOMEN SAVED.

The Upper Corridors Swarmed With Shrieking Females In Night Robes Many of Whom Were Members of Play Troupes

Cincinnati, Jan. 20.—A hotel fire with sensational escapes took place between 3 and 4 a.m.

The Sherwood House took fire probably from an overheated furnace, and in a very brief time the house was so filled with smoke as to endanger the lives of the 60 or more sleeping guests. Many of the guests were members of theatrical companies. Very soon the upper corridors were filled with shrieking, hysterical women in night robes.

The male guests had difficulty in restraining the women from jumping from the windows.

The firemen were active in carrying out the women, and most of them were rescued by the stairway, but several were taken down by the ladders and by the fire-escape.

F. H. Munch, a traveling salesman from New York, was among the last to be rescued. He was found with a wet towel over his face in an unconscious condition, but by the aid of physicians was saved.

FOR CHRISTIAN ENDEAVORERS.

President Clark Offers Suggestions to Members Regarding Expansion.

Boston, Jan. 20.—President F. E. Clark, D. D., of the United Society of Christian Endeavor, has undertaken to set before Endeavorers certain principles to be considered in determining the attitude of the members of the society as to imperialism or national expansion.

President Clark says: "The great questions involved are not whether expansion will increase our exports or imports, not whether it will involve a great standing army and a vast navy, not whether it will increase our national prestige and importance, not whether it will involve a strict or liberal interpretation of the constitution, not whether it will involve the shelving of the Monroe doctrine, but whether or not imperialism will enable America to better perform its mission among the great nations of the world as a civilizing, uplifting and Christianizing force."

INDICATIONS.—Threatening weather,
 & a heavy wind.

It is said that New York has nearly as many policemen as Uncle Sam had soldiers before the commencement of the argument with Spain. Just think of 7,461 guardians of the peace! That is the metropolitan quota.

The American Steel and Wire Trust bought up properties worth \$24,000,000 and "capitalized" it at \$94,000,000. This combination of robbers under the guise of business men, are securely protected by a Republican tariff, and thus protected they propose making the American people pay them a dividend on \$70,000,000 that represents no actual investment. Down with the trusts.

SOME of the leading insurance companies doing business here in Maysville not long ago took a risk on a New York "sky scraper" of \$350,000 for five years for \$70. Of course everybody knows that is not a "living" rate, and these companies made up for the deficiency by charging exorbitant rates in other parts of the country. Maysville people have to pay more for insuring a \$10,000 building one year in these very companies than this New York concern paid them for \$350,000 risk for five years.

Pork Packing
 [Cincinnati Price Current, January 19.]
 The Western packing for the week represents a total of 565,000 hogs, compared with 560,000 the preceding week, and 615,000 two weeks ago. For the corresponding time last year the number was 480,000. From November 1st the total is 6,835,000, against 5,585,000 a year ago—an increase of 1,250,000. The quality of current marketing is good with little exception. The average of prices at the close is about the same as a week ago.

"A Splendid Mixer."
 Yesterday's Courier-Journal contains a special sent from this city which says: "Thomas D. Slattery, a bright and promising young member of the Maysville bar, is being urged to become a Democratic candidate for the Legislature, and will probably announce his candidacy in a few days. Mr. Slattery has had considerable experience in local campaigning and is a good political speaker. He is popular and a splendid mixer."

An Atheist Converted.
 TOLEDO, O., Jan. 19.—M. O. Waggoner, a very patriarchal-looking gentleman, fully eighty-five years old, and who has been an atheist of the most pronounced type for fully sixty years, created a profound sensation here to-night by publicly announcing his conversion to the religion of Christ. He delivered a most impassioned exhortation, calling on all to join Christ.

Narrow borders of fur have never been more fashionable than they are this winter. Tailors are using them extensively, putting back of the fur edges braided bands done in small silk cords. Fur is also used with satin and lace. I notice that a large number of the imported London and Paris evening dresses are bordered with fur, but the very newest trimming is made of chenille fringes, with an applique of lace flowers traced with embroidery. Other garments which are to be found trimmed with fur are tea gowns, the ideal material of these being panne—extravagant this, but very charming. Especially in a pale shade of rose pink or in turquoise blue, with a border of dark fur adorning the front of duchess lace mounted on chiffon, it has an effect truly beautiful.

A Crusher.
 Legge, bishop of Oxford, who had not youth as his excuse for his vanity, asked his friend Canning to come and hear his first episcopal sermon. They dined together afterward, and from the politician's silence the other ought to have known better than to push him, but being rather nettled he exclaimed, "Canning, you have said nothing to me about my sermon." "Well, it was short." "Oh," said the bishop, "it is better to be short than tedious." "But," replied Canning, "you were that too."

HEAVY FINES

Assessed Against Members of the Insurance "Combine"—They Will Appeal—Attorney Franklin Will keep After 'Em.

FRANKFORT, KY., Jan. 19.—The trial of the indictments against the eighty-seven fire insurance companies that are members of the Kentucky and Tennessee board, for conspiring together to maintain high rates of insurance, was concluded in the State Fiscal Court to-day, and the jury returned a verdict of guilty, fixing the fine against each company at \$250, or \$21,750 in all.

The individuals comprising the Kentucky and Tennessee board were not fined, though it is said several of the jurymen were in favor of giving the Kentucky members of the board a short jail sentence.

The insurance companies will appeal and meantime it is the intention of Commonwealth's Attorney Bob Franklin to have each successive grand jury indict the same companies on the same charge, and if the Court of Appeals sustains the verdict of to-day other fines will follow till the insurance combine, as it is called, is broken up.

State's Attorney Franklin has displayed great talent in framing indictments in other cases that stood the test of the Court of Appeals, and it begins to look equally bad for the insurance companies.

HOW TRUSTS FLOURISH.

Figures Showing How the Steel and Wire "Combine" is Protected by the Republican Tariff.

[Louisville Post.]

The recent organization of the American Steel and Wire Trust secured under one organization the practical monopoly of the wire business of the company.

This organization calls for the capitalization of ninety-four millions of a property the actual value of which is but twenty-four millions.

This trust is dealing in articles most highly protected from foreign competition, as this table from the New York Times will show:

Wire Rods.	Equal to	Ad
Valued at 4 cents or less per pound.....	Per lb., Valorem.	Cents. Per cent.
Valued at over 4 cents per pound.....	40	23 00
Wire, Round, Iron or Steel.....	75	8 97
Not smaller than No. 13.....	1 25	36 19
Nos. 14 to 16.....	1 50	43 69
Smaller than No. 16.....	2 00	55 29
Valued at over 5 cents per pound.....		46 00
All other iron or steel wire or manufactures thereof.....		45 00
Wire Nails.		
Not less than 1 inch, nor lighter than No. 16 wire gauge.....	50	30 00
Less than 1 inch and lighter than No. 16.....	1 00	60 21

There are men who contend that trusts depend on saving, and not on extortion, for their gains; that having the power to rob they have the sense to refrain; that with a giant's strength they will act the woman. Here in this table is legal authority for a predatory warfare on all other American industries; how will it be used? The answer is contained in this dispatch from Cleveland:

"As a result of the completion of the so-called 'wire combine' an advance of \$2 per ton for wire and wire nails was announced here to-day. It is impossible to buy wire rods in the market in this part of the country, the 'combine' having absorbed all the rod mills."

Each day makes plainer that legislative action will be imperative unless we are willing to subsidize trusts and divide the land among the combines.

We take care that only good wools, inodorous wools, get into the Blankets we sell. Comfort demands that they shall be pleasant to both smell and touch. We don't sell these goods for less than they are worth, but we save enough through careful buying to make prices less than usual for Blankets of such special goodness. We wish to draw your attention particularly to our \$3.50 and \$4 Blankets. They will save you silver and shivers.

Hat Rosettes.

Milliners have invented many new forms of rosettes. We have the old circular plaited kind, and the oval ones, which are newest, are made in satin.

ONE OF THE NEWEST.

surrounded by a tiny gathering of the same material placed erect on the front of the upturned brim and secured by a paste buckle.

Fancy quills of many varieties stand up from the face, thrust through rosette bows in a very curious fashion. Our sketch is a good example of this style. It is of mouse colored felt, held back from the face by a decorative agency of a curious flat rosette of tuck velvet of the new clair de lune coloring—a wonderfully lovely blue of indescribable softness—and a trio of broad and beautifully marked quills, another rosette being laid on the brim outside.—Philadelphia Ledger.

At President McKinley's Home.

While in Canton the Ladies' Symphony Orchestra, of Boston, tendered President-elect and Mrs. McKinley an impromptu recital at the McKinley home. A delightful program of about a dozen numbers were played. Both Major and Mrs. McKinley are very fond of music and expressed their appreciation by applauding the fair performers. The members of the company were each presented souvenir McKinley "homestead" pins by Mrs. McKinley, and will doubtless always remember with pleasure their visit to Canton.—Associated Press Dispatch.

This splendid orchestra is undoubtedly the best in the country. It will appear Monday night at the Third Street M. E. Church under auspices of the Y. M. C. A. The entertainment will unquestionably be the musical event of the season.

GOLDEN WEDDING

Celebrated by Mr. and Mrs. Timothy Desmond—Relatives and Friends of the Family Present.

Mr. and Mrs. Timothy Desmond celebrated their golden wedding yesterday, surrounded by their relatives and a few intimate friends.

This good couple were married in Maysville fifty years ago and have borne the burden of these years together so well that the journey leaves few traces on their aged brow.

Mr. Desmond was born in Ireland eighty years ago. His bride of fifty years, was also born in Ireland, seventy-one years ago. Both came to this county and settled in Maysville when quiet young and have since resided here. Their union was blessed with twelve children. Six children died, and three sons and three daughters still live. They have twenty-five grandchildren.

The event was indeed a pleasant one and surrounded by their host of relatives and friends, the day was a memorable one.

This good old couple have been blessed with children who use every endeavor to make the declining days as pleasant as possible, and as they are both hale and hearty they bid fair to live many years yet.

EDITOR MARSH swallowed a couple of microbes, and, as a consequence, is laid up with the grip to-day.

In the Times-Star's account of the Sherwood Hotel fire at Cincinnati yesterday morning, the names of S. R. Cowgill, H. B. Jack and J. H. Black appear as guests from this city.

Word comes from Augusta that there was one death down there from diphtheria yesterday, and on account of the prevalence of the disease it is probable that the schools will be closed.

MR. E. P. BROWNING received a telegram shortly after 10 o'clock this morning announcing the death, at Hutchison Station, of Mrs. Tom Browning. The funeral will take place to-morrow afternoon at 1 o'clock.

COLONEL ALBERT E. BOONE's attorney at West Union has attached \$200 in notes belonging to Dr. Eyer Walters, of Pennsylvania, a former druggist there, to collect a \$50 subscription to the promotion fund of the Black Diamond Railroad, which Walters refuses to pay.

CARDS have been issued announcing the approaching marriage of Miss Anna Burns Caldwell to Mr. William Tyler Gray, both of Tollesboro. February 1st at 8 p. m. is the date and hour of the nuptials which will occur at Tollesboro Christian Church. Miss Caldwell is a daughter of Mrs. Fannie Caldwell.

WASHINGTON Fire Company this week disposed of the old fire engine "Little Red" to a junk dealer for \$30. "Little Red" was presented to the company in 1850 by the city, and had done good work in its day. It was the only engine saved from the fire a year or so ago that destroyed the opera house and Parker & Smoot's livery stable.

HERE is some valuable and timely advice furnished by the Scientific American: "At the first indications of diphtheria in the throat of a child, make the room close; then take a tin cup and pour into it an equal quantity of tar and turpentine; then hold the cup over a fire so as to fill the room with fumes. The patient inhaling the fumes, will cough and spit up the membranous matter and the diphtheria will pass off. The fumes of the tar and turpentine lessen the trouble in the throat, and thus afford the relief that has baffled the skill of physicians."

REV. S. D. DUTCHER, of Cincinnati, has not decided yet whether he will accept the call from the church at Mexico, Mo. The Enquirer says: "He had been informed some weeks in advance that he would be called to the pastorate of the Mexico church, and had at once sat down and written a letter to one of its officers requesting that his name be not used in that connection, but his request was disregarded. His family, he said, are opposed to his accepting the call and their wishes would have great weight with him in determining the action he would take."

Red Hot From the Gun

MR. A. M. J. COCHRAN.

Prominent Maysville Republican Mentioned as a Candidate For Railroad Commissioner—Several Candidates in the Field.

FRANKFORT, Ky., January 19.—The race for the Republican nomination for Railroad Commissioner in the Eastern district is already becoming interesting.

The present commissioner from that district is John C. Wood, of Mt. Sterling, and he is a candidate to succeed himself. Senator William Dingus, of Johnson County, is a candidate, as is also William Culton, of Jackson County. Hon. Bill Lyons, of Newport, will become a candidate, it is said, in a few days, as he has been consulting with his friends for some time with that end in view.

A. M. J. Cochran, the Maysville attorney, is a probable entry in the race, and if J. K. Dixon, of Johnson County, is mustered out of the army in time it is understood he will make the sixth candidate.

The district is an immense one, and includes part of the Sixth and Seventh, all of the Ninth, Tenth and part of the Eleventh Congressional districts. It will take about 200 votes to nominate in the convention.

HOPKINS' BIG ESTATE.

Most of It Goes To His Confidential Agent and His Housekeeper—The Heirs Get \$50,000.

KANSAS CITY, Mo., Jan. 19.—In a few days the \$400,000 estate of Charles Grandison Hopkins, a bachelor, who died in this city in October, 1893, will be divided among Thomas M. Barr, his confidential agent; Harriet E. Calvert, his housekeeper, and the Hopkins heirs.

A compromise has been reached, and the contest suit brought by the relatives will be dismissed.

By the terms of the compromise, as by the will, Mr. Barr and Miss Calvert will receive the bulk of the estate; \$200,000 and \$150,000 respectively is their share.

Among the relatives who will benefit by the will are Mrs. Narcissa Nelson, Indianapolis; Mrs. Martha Martin, Maysville, Ky. They will receive sums ranging from \$50 to about \$4,000.

Resolutions of Respect.

We the committee of Germantown Lodge No. 63, K. of P., appointed to draft resolutions of respect on the death of Mrs. Mira Browning, mother of A. D. McDougle, one of our honored members, beg leave to report the following:

WHEREAS, It has pleased Almighty God to take from our midst Mrs. Mira Browning, one whom we all loved for her zealous Christian life, for her many kindnesses to all who came in contact with her, and for her devotion to home and loved ones;

Therefore, Be It Resolved, That she will be missed in our homes where her presence often came, always bringing sunshine and words of cheer to dispel the gloom.

Resolved, That she will be missed in the church where her devotion is worthy of her sincerest commendation.

Resolved, That we see much in her life to be commended to the rising generation.

Resolved, That we extend our heartfelt sympathies to Albert, our beloved brother, in this, his hour of bereavement and sorrow, and for comfort we ask him to look to that divine one who spoke peace to the troubled waters of Galilee.

Resolved, That a copy of these resolutions be spread upon the minutes of our lodge, and that a copy be furnished the county papers for publication.

AFTER GRIP.

There is no denying the serious fact that there is a great amount of sickness from the grip; that overworked men and women now suffer more than at any other time of the year from lassitude, headaches, slight chills and fever and other symptoms of imperfect health; that people fall sick more readily now than at any other time of the year, and that when an epidemic does appear it invariably plays havoc with those who are run down and out of condition.

The utmost caution should be taken to keep the blood pure and the nervous system in healthy tone.

There is no more excuse for the prevalent symptoms of stagnant, impure blood in the body than there is for the barbarism of filthy streets in a city.

The relaxed and sluggish action of the excretory organs loads the body with waste material that poisons it and brings on headaches, rheumatic pains, sleepless nights and profitless days, due solely to the circulation in the blood, or deposit in the tissues, of these waste matters which Paine's Celery Compound alone will quickly drive out.

When the arms, hips or back feel the twinges of acute rheumatism it is high time to relieve the kidneys and bladder from the strain that so often brings on Bright's disease, gravel, droopy and complications of diseases with other organs whose health depends upon the purity of the blood. Prompt use of Paine's Celery Compound will save the weakened parts from yielding to disease.

In its peculiar ability to invigorate the body, to make new blood and to regulate the nerves, lies the great value of Paine's Celery Compound in all wasting diseases and disorders of the kidneys, liver and stomach.

Paine's Celery Compound rescues shaky, enfeebled nerves from prostration and removes that feeling of utter exhaustion that causes so much despondency among so many worried men and women.

It makes flesh, blood and strong nerves. Paine's Celery Compound is not a patent medicine! It is not the discovery of some quack doctor of whom his profession never heard; it is not a concoction put up by some man who first invented a name, and then adopted a preparation to fit it; it is not a secret remedy.

SCALE REFERRED BACK.

Miners and Operators Awaiting the Action of a Joint Committee.

Pittsburg, Jan. 20.—The session of the interstate convention of coal miners and operators was taken up with a discussion of the two scales previously presented.

Miners' District President Dolan said that the miners knew when they presented it that they could not get it and the operators were not sincere when they drew up the scale.

Many operators, he said, were willing to concede the 8-hour day and the run-of-mine system. It was finally decided to refer both scales back to the joint committee for revision, and the convention adjourned for the day. In the meantime the joint scale committee will go over the scales and make a report at the next session.

Bank Robbers Make a Haul.

Arcola, Ills., Jan. 20.—The bank at Arthur, 10 miles from here, was robbed of between \$4,000 and \$5,000. Six men overpowered the night watchman, bound and gagged him, blew open the safe, secured the money, stole a handcar and came toward this city. A posse has been organized and bloodhounds put on the trail.

Mr. White Declines Instruction.

Washington, Jan. 20.—Mr. White (Cal.) made a personal explanation of his attitude in relation to the peace treaty in response to the instructions of the California legislature to vote for the ratification of that instrument. He said he had not joined with Mr. Perkins in the request for such instructions, and that he could not be governed by them as he did not consider that a United States senator was under obligations to subordinate his own conscience and convictions in national or a state legislature. Mr. Perkins replied to Mr. White, saying that the recent election in California had shown that the people indorsed the expansion policy of the president, and that he (Perkins) accepted this verdict as in itself in the light of an instruction to himself.

But it is, first, the result of the life-long study of the greatest physician America has produced, a man whose reputation was world-wide years before he had ever arrived at this formula which has done so much good; a man who has received the highest degrees from the best colleges, who was at the time of his discovery a professor at Dartmouth and a lecturer in other universities, a scholar, a member of a family which has made its mark in every department of public life in America. It is a remedy the formula of which has been furnished to physicians in good standing always, and which physicians were prescribing long before the present manufacturers put it up for public distribution; it was discovered by Prof. Edward E. Phelps, M. D., LL. D., and was first prescribed with wonderful success by that eminent group of practitioners who have made American physicians known the world over, and of whom he was then as now, undoubtedly the most famous.

The best test that can be applied to Paine's Celery Compound is to use it.

If one is "run down," feels without energy, lifeless, useless, fretful, take this great remedy, and note the change. Constipation will no longer give one a disquieting thought; the appetite will come back; sleeplessness and headaches will be things of the past. This is the experience of men and women in every part of the country.

General good health depends upon the perfect action of the nervous currents, the vigor of the circulation and the quality of the blood.

The history of Paine's Celery Compound has been made familiar to every intelligent household in the land. In the clearest and most direct manner conscientious men and women have told of rapid recovery from disease by the use of this remedy.

Paine's Celery Compound is unapproached by any other remedy for restoring the nervous system when broken down or impaired from over-exertion of mind or body.

It strengthens the digestive powers, renews the blood and acts in the vitalizing, curative, thorough manner that makes it the grandest help to suffering men and women the world of medicine affords.

Relief Ordered to Manila.

Washington, Jan. 20.—At the instance of Surgeon General Sternberg, Secretary Alger ordered the hospital ship Relief to Manila to serve there as a hospital ship, and also as an ambulance ship for the conveyance of sick and wounded soldiers from Manila to Nagasaki, or even to San Francisco. The Relief is now at New York, and will go by way of the Suez.

Opposed to Roberts.

St. Louis, Jan. 20.—Members of the reorganized church of the Latter Day Saints in St. Louis oppose the seating of Congressman-elect B. H. Roberts, on the ground that he is a pronounced polygamist. At a business session of the church here the question was discussed, and a vote was taken, resulting in the adoption of resolutions to that effect.

Sometimes it seems to weary woman that she must certainly give up. The simplest and easiest work becomes an almost insurmountable task. Nervousness, sleeplessness and pain harass her and life seems hardly worth the living.

Dr. Pierce's Favorite Prescription was made for her. Dr. Pierce's Golden Medical Discovery was made for her. The former is for the distinctly feminine, the other for her general system. Together they supply a scientific and successful course of treatment. The "Favorite Prescription" restores healthy, regular action to the organs distinctly feminine. It forces out all impurities, strengthens the tissues, allays inflammation. The "Golden Medical Discovery" makes appetite, helps digestion, promotes assimilation, fills out the hollows in cheeks and neck with good solid flesh and brings back the gladness of girlhood.

Send 21 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page Common Sense Medical Adviser, illustrated.
